## PROFESSIONAL SUMMARY

Detail-oriented UI Developer with a strong foundation in front-end technologies and responsive web design. Proficient in creating intuitive, user-friendly interfaces using HTML, CSS, Bootstrap, and JavaScript. Experienced in building dynamic and data-driven web applications with ASP.NET, C#, and MySQL. Passionate about transforming user needs into functional, visually appealing solutions while continuously learning and implementing cutting-edge web development practices.

## EXPERIENCE

### Software Development Intern

TechMatrixEdge | Pune

April 2024 – November 2024 (7 months)

- Designed and developed interactive, responsive UIs for web applications.
- Collaborated with designers and developers to create consistent and visually appealing web applications.
- Integrated front-end designs with MySQL back-end systems, ensuring seamless functionality.
- Worked closely with designers and developers to maintain design consistency and adhere to project requirements.
- Enhanced team productivity through effective collaboration and communication.
